PRODUCE

PANTRY

DAIRY

The figure consists of three identical vertical columns. Each column contains ten light brown circles arranged in a single row. The columns are separated by horizontal dotted lines. Within each column, the circles are also separated by horizontal dotted lines.

MEAT & FISH

HOUSEHOLD

The diagram consists of seven horizontal rows. Each row contains three circles: one on the far left, one in the center, and one on the far right. The circles are light brown with dark brown outlines. They are arranged in a grid-like pattern with horizontal dotted lines separating the rows.

OTHER

The diagram consists of four horizontal rows of five circles each. Horizontal dotted lines connect the circles in each row. The first row has circles at positions 1, 3, and 5. The second row has circles at positions 2, 4, and 6. The third row has circles at positions 1, 3, and 5. The fourth row has circles at positions 2, 4, and 6.

MY GROCERY LIST

A treemap visualization illustrating the composition of household expenses. The main title "HOUSEHOLD" is centered at the top. To the left, a pink box contains the category "MEAT & FISH". The treemap is divided into several rectangular regions of varying sizes and shades of pink, representing different expense items. A dotted line runs horizontally through the treemap, separating the "MEAT & FISH" section from the rest of the household budget.

The figure consists of a horizontal timeline at the top with the word "OTHER" in bold black capital letters. Below the timeline, there are four vertical columns of pink circles. Each column has a dotted line extending downwards from its first circle. The circles are arranged such that the first circle of each column is aligned horizontally with the second circle of the next column to its right.

PRODUCE

PANTRY

DAIRY

A 10x3 grid of light purple circles, representing data points or observations. The grid is composed of three columns and ten rows. Each row contains three circles, and each column contains ten circles. The circles are evenly spaced both horizontally and vertically.

MEAT & FISH

HOUSEHOLD

The diagram consists of six vertical columns of nodes. The first column has 6 nodes. The second column has 5 nodes. The third column has 6 nodes. The fourth column has 5 nodes. The fifth column has 6 nodes. The sixth column has 5 nodes. Each node is represented by a pink circle with a black outline. Horizontal dotted lines connect the nodes in each column.

OTHER

A diagram illustrating a sparse matrix structure. It consists of four horizontal rows, each containing a series of small grey dots. Vertical dashed lines connect the dots in each row. The distribution of dots is as follows: the first row has 3 dots, the second row has 4 dots, the third row has 3 dots, and the fourth row has 2 dots. This visual representation corresponds to the matrix shown in the code block above.

PRODUCE

PANTRY

DAIRY

The diagram illustrates a network structure with three columns of nodes. The left column contains 10 nodes. The middle column contains 9 nodes, with the bottom node being significantly smaller than the others. The right column contains 10 nodes. Each node is depicted as a light brown circle with a black outline. Horizontal dotted lines connect corresponding nodes in each row, indicating connections between nodes across the three columns.

MEAT & FISH

HOUSEHOLD

The diagram consists of six identical horizontal rows. Each row contains three circles arranged in a triangle: a top circle, a middle circle below it, and a bottom circle below the middle one. All circles are light brown with dark brown outlines. A dotted line connects the centers of the three circles in each row. The rows are separated by small gaps.

OTHER

The diagram consists of four horizontal rows of five circles each. Each circle is a light brown color. Horizontal dotted lines connect the centers of the circles in each row, creating a grid-like structure. The circles are evenly spaced both horizontally and vertically.
